Collaborative Research based on Equatorial Atmosphere Radar (EAR)
Research Institute for Sustainable Humanosphere (RISH), Kyoto University

Date:

Principal Investigator Affiliation, Position			Name	
Address	(E-mail: _____)		Tel.	
Cooperative Researcher(s) Name, Affiliation, Position				
Title of project	<input type="checkbox"/> New proposal <input type="checkbox"/> Continued			
1. Goal of the project (if continued project, include reason to continue)				
2. Observation plan				

3. Equatorial Atmosphere Radar (EAR) usage

Expected Period: Month: () hours (Fill in details under '7')

Observation Mode: Standard FAI FDI
 RASS Others (Fill in their summary under '7')

4. Other facilities

Surface weather instrument Ceilometer Satellite communication link
 Meteor radar Boundary layer radar
 Others()

5. Planned schedule of visit to the EAR site

6. Expected outcome (if continued project, also describe the results already obtained)

(Publications if continued project)

7. Remarks (Details of what is described in 3)

8. Financial support (Fill in type, title etc. of applicant's research budget related to this proposal.)
