

73rd Symposium on Sustainable Humanosphere  
RISH-LAPAN-LIPI International Symposium

# Science for Sustainable Humanosphere

## International Collaborative Programs in Indonesia

Opening Remarks: **S. Kawai, Bambang Teja, Endang Sukara**

**Clara Yono Yatini** Solar Activity and Its Impact on the Earth and Environment

**Kozo Hashimoto** Power from Space to Islands of Indonesia – Solar Power Satellite –

**Wahyudi Wardojo** Indonesian Sustainable Forest Management

**S. Kawai** Sustainable Forest Production and Utilization of Acacia

**Bambang Subiyanto** Utilization of fast growing trees and agrowaste

**Y. Imamura** Termites; Are they pests or angels in sustainable humanosphere?

**Maryoko Hady** Research and Developments for Aseismic Houses Made of Wood from Man Made Forest

**Kohei Komatsu** Research and Developments for Enhancing Seismic Performance of Wooden Dwelling Houses in Recent Japan

**Hideyuki Kobayashi** Supporting Strategy for Urban Development and Housing Construction in Developing Countries regarding Global Climate Change

**Tri Wahyu Hadi** Recent Advances in Observations and Modeling of The Diurnal Convection in The Maritime Continent, and Probable Implication for Operational NWP in Indonesia

**T. Tsuda** Collaborative observations of equatorial atmosphere over Indonesia

**T. Djamaluddin** Atmospheric Research to Support Sustainable Development in Indonesia

# July 25, 2007 9:00-17:00
