

**The 5th International Symposium of Sustainable Humanosphere (ISSH)-  
A Forum of Humanosphere Science School (HSS)**

Jakarta, September 29-30 2015

**THEME : "Innovation in Science and Technology towards Sustainable Future"**

**INTRODUCTION**

Human activities give a significant impact on earth that have to be managed in order to ensure the sustainability of this living world. In this stage of human history, challenge and risks are high but opportunities for social and environmental changes are also widely open. It requires innovation in science and technology to face this situation. One of the most urgent global issues of our times is to cope with the impact of the clearly recognized climatic changes and associated extreme weather and water-related hazards, such as floods and drought. This situation raises awareness to create efforts to anticipate the negative impacts that might come

Taking part actively in the role, Research Center for Biomaterials, Indonesian Institute of Sciences (LIPI), Research Institute for Sustainable Humanosphere (RISH), Indonesian National Institute of Aeronautics and Space (LAPAN), with Kyoto University proudly present Humanosphere Science School 2015.

Humanosphere Science School (HSS) provides learning experienced by sharing knowledge, science, and technology for sustainable future delivered by experts specializing in subjects related to specific topics. HSS will also hold a forum for inter-disciplinary researchers, practitioners and professionals to share their knowledge or results of scientific research in The International Symposium for Sustainable Humanosphere (ISSH).

The main theme for this year conference is "Innovation in Science and Technology towards Sustainable Future". The conference focuses on the innovative contributions in advanced science and technology to encourage and motivate current and future development for achieving sustainable humanosphere.

HSS and ISSH are run in different city each year. This year the conference will be held in Jakarta, the capital city of Indonesia. Learning process uses presentation and discussion sessions. Learning topics include issues that are popular and actual, become specific concern for scientists, especially those related to sustainable humanosphere. HSS will be held in 2 days and is divided into several sessions depend on the topics. We cordially invite researchers from any scientific fields, academicians and professionals to join this two-day seminar.

**TOPICS**

1. Atmospheric/Ionospheric Science
2. Biosphere Science
3. Geosphere Science
4. General Forestry
5. Remote sensing (Science & technology)
6. Community-based Development and Social Economic Science

**DATES and PLACES**

September 29-30 2015  
Sasana Widya Graha LIPI (Indonesian Institute of Sciences)  
Jl. Gatot Subroto No. 10 Jakarta

**IMPORTANT DATES and DEADLINES**

Abstract Submissions : June 25, 2015  
Full-Paper Submissions : September 25, 2015  
Registration : September 29, 2015

**SUBMISSION & INFORMATION**

The announcement and tentative program of the conference is available at :

<http://www.biomaterial.lipi.go.id/hss2015>

**CONTACT**

E-mail : [iss@biomaterial.lipi.go.id](mailto:iss@biomaterial.lipi.go.id)  
mobile : +6281335110133 (Apriwi Zulfitri)

**REGISTRATION FEE**

Student (bachelor & master) :	participant	IDR 200 000/USD 20
	author	IDR 300 000/USD 30
General :	participant	IDR 400 000/USD 40
	author	IDR 500 000/USD 50

\*Accommodations (hotel) and cultural night dinner are not included  
Payment could be paid by transfer to:

Account Name : **Triastuti**  
Account Number : **900 00 1383907 2**  
Bank Name : **Mandiri KCP. Mayor Oking**  
SWIFT code : **BMRIIDJA**

**SECRETARIAT**

Research Center for Biomaterials LIPI  
Jl. Raya Bogor Km. 46, Cibinong, 16911 Bogor  
Phone : +62-21-87914511  
Fax. : +62-21-87914509

Organized by :

Research Center for Biomaterials - LIPI  
Indonesian National Institute of Aeronautics and Space (LAPAN)  
Research Institute for Sustainable Humanosphere (RISH)  
Kyoto University Japan
